### **\*EAS and Cornell Master Beekeepers Program**

Master Beekeepers are certified beekeepers who have a detailed knowledge of honey bee biology, expertise in the proper practices of beekeeping, and can present this information to the beekeeping and non-beekeeping public in a detailed, accurate, clear and authoritative manner.

Master Beekeepers provide education and assistance to beginning beekeepers and serve in other capacities in the community as experts in beekeeping. The Master Beekeeper program was developed by Dr. Roger A. Morse at Cornell University. The program has been expanded by the Eastern Apicultural Society of North America to other areas.

You can learn more about the Master Beekeeper Program by visiting the Eastern Apicultural Society website: <http://www.easternapiculture.org/master-beekeepers/certification.html>

=

### **President's Message:**

Hope to see you soon. Don

---

## **From the Editor's Desk**

Conni Still

It was so great to see so many members at the Peconic River Herb Farm. It was hard to recognize some people with their masks on and it was interesting to see how many different “Bee” masks were available.

The location was wonderful and we were able to all be safely social distanced.

Our zoom meeting on Swarms by Kim Skym last night was really informative. I think there was about forty members on line. Please remember to keep yourself muted when on zoom to keep from interrupting the speaker. You can type questions to John who is the host and then he can read them after the presentation. Maybe we should have a column from John on zoom etiquette! See you Sunday.

**STAY SAFE and WASH YOUR HANDS  
and WEAR YOUR MASKS!**

### **DUES FOR 2020 ARE PAST DUE!**

Annual dues are \$35.. PLEASE send a check payable to LIBC to Conni Still at 82 Stephen Road, Bayport, NY 11705, go to the club website [Longislandbeekeepers.org](http://Longislandbeekeepers.org) and use PAYPAL,

*Any member who does not pay their dues will not receive future newsletters nor have free advertising in future newsletters, Also please **update** your copy for your ads. Send your information to Moira Alexander at*

[ramoi@aol.com](mailto:ramoi@aol.com) and put LIBC classified ads in the subject line.

PLEASE BRING YOUR OWN  
CHAIRS AND WEAR A FACE  
MASK WHILE ON THE PROPERTY

## LIBC Meeting Schedule for 2020

NOTE: The meetings are the fourth Sunday  
of the month at Sisters of St. Joseph  
Convent in Brentwood

Hey Beekeepers....

The board has chosen Sunday evenings at  
7 pm in hopes that it will not interfere with  
family or working from home. Many clubs  
are using this format to keep members  
engaged and educated as our hives expand  
and change during the summer months.

Please remember that the LIBC board  
members and the JJC members are available  
for individual hive questions....MOIRA

PLEASE CIRCLE THESE DATES ON  
YOUR CALENDARS AS WE ZOOM  
INTO BECOMING BETTER  
BEEKEEPERS...

Hi Beeks

Our club meeting will be held on **JULY  
19th** at the Brush Barn in Smithtown. We  
will be social distancing under the oak trees  
in front of the barn. Everyone is to bring  
their own chair and wear a mask..

We will have a table to sign in and a place to  
drop your dues...

There will be some great door prize  
giveaways but you have to attend the  
meeting to be entered in the opportunity to  
win bee supplies

The meeting will start promptly at 1:15pm  
...So please be seated and ready to go by  
1pm

Our format for this club meeting is 4 mini  
presentations followed by Donal opening 2  
of his hives at the rear of the property

We will begin our meeting with board  
members presenting what has happened in  
the club this month and how our club will be  
handling meetings in the future months..

Following the short club meeting.....  
Grace Mehl will be discussing.. Varroa in  
July... YUP AGAIN !!!  
Nick Hoefly will do a presentation on...  
Working City Bee

### SHORT BREAK

Joan Mahoney will catch us up on ...  
American Foulbrood in NYS and How to  
Spot It in **YOUR** Hive  
Moira Alexander will close with... Different  
Ways to Remove Frames From the Hive For  
Extraction

Like to thank the 40 people that Zoomed on  
Sunday with Kim Syrm and left with a better  
understanding of the colony, queen and the  
conditions that push the hive to swarm

Moira

**July 28th** Emma  
Mullins 7pm Understanding Brood  
Diseases

**July 26th** – Master beekeepers with topics  
to be discussed. Open meetings and possible  
Zoom connection:

**August 23rd** TBD

**September 27th** TBD

**October 25th** TBD

**November 22nd** - Jamie Ellis The Incredible NUC TBD

**December 6th or 13th** Christmas Party...TBD

- 3 club... 2 frame extractors are available for \$10 rental for honey extraction.- call Moira or Rick-

**Directions to: : Brush Barn Smithtown: Smithtown Historical Society Frank Brush Barn**

211 East Main Street (Route 25), Smithtown, NY 11787

From Northern State Parkway: Take the Parkway east until it ends and merges onto veterans Highway (Route 454). Move to left lanes and bear left onto route 347. Look for right exit onto Route 111, then turn left at traffic light onto route 111. north toward Smithtown. Follow route 111 to the major intersection at Main Street (Route 25). Turn right onto Main Street and left at the Epenetus Smith Tavern (211 Middle Country Road), just before the first traffic light, opposite the bank of New York (0.1 mile). The barn is behind the tavern.

Long Island Expressway: Take Exit 56 onto route 111 North. Stay on route 111 all the way to Main Street (Route 25). Note: Route 111 twists and turns, so watch the road signs!) Turn right onto main Street and left at the Epenetus Smith tavern. The barn is behind the tavern.

Subject: A new beekeeping resource

**Hello from Australia,**

**Sean here from Flowers Across Sydney - we blog about plants and flowers (so bees are naturally important to us).**

**We published a beginners guide to beekeeping. It has lots of visuals and 6000 words of content, so I thought that it might be a nice addition to your club's site?**

**You can check it out here:**

<https://blog.flowersacrosssydney.com.au/beekeeping-guide-beginners/>

**Either way, keep up the good work!**

**Thanks,**

**Sean**

Subject: Bayer Announces Blue Ribbon Beekeeper Award, Nationwide Call for Next-Gen Beekeepers

**Hi Steven,**

Today, in celebration of National Pollinator Week, Bayer announced a nationwide call for the next generation of beekeepers and pollinator advocates (ages 12-18) to apply for the [Blue Ribbon Beekeeper Award](#). These outstanding individuals have created unique projects on their own or with their local communities to promote and protect pollinator health for years to come.

The annual award, sponsored by the Bayer Bee Care Program, honors young leaders who have made a positive impact through beekeeping or other pollinator-related research and activities. **Applications are open now through**

**August 21, 2020**, and each entrant will have the chance to earn a \$3,000 (first), \$2,000 (second) or \$1,000 (third) place prize, which can be applied toward continuing their beekeeping efforts or a college scholarship.

Since 2013, the Bayer Bee Care Program has recognized individuals and partners who have demonstrated dedication to pollinator protection and educating their communities about honey bee health. You can learn more about past award recipients [here](#).

As an established leader in the beekeeping and pollinator space, we would appreciate your support in sharing this exciting opportunity with young beekeepers across the nation. **Are you able to share the application materials and information through your channels?**

Entrants can learn more about the award and apply through the link [here](#). For more information about Bayer Bee Care Program's National Pollinator Week activities, please see the press release below.

Please let me know if you have any questions. Thank you in advance for your support!

Best,

Christiana

## **Bayer Launches 2020 Blue Ribbon 1 Giveaway Program to Celebrate Nat**

*Company continues its dedication to biod  
beekeepers and pollinator enthusiasts*

**ST. LOUIS (June 22, 2020)** – In celebration of National Pollinator Week, Bayer today announced two new initiatives: a nationwide call for the next generation of beekeepers and pollinator health advocates to apply for the Bayer Bee Care [Blue Ribbon Beekeeper Award](#), and a [seed giveaway program](#) to make free seeds available to pollinator enthusiasts interested in planting forage through the

Bayer [Feed a Bee](#) initiative. National Pollinator Week, taking place this year June 22 – 28, was established 13 years ago by [Pollinator Partnership](#) to raise awareness about the significant work pollinators do to help put food on our tables.

An initiative of the [Bayer Bee Care Program](#), the Blue Ribbon Beekeeper Award recognizes students between the ages of 12 and 18 who are actively working to support honey bee and pollinator health in their communities. Those who apply have the opportunity to win \$3,000 (1<sup>st</sup> place), \$2,000 (2<sup>nd</sup> place) or \$1,000 (3<sup>rd</sup> place) to support the continuation of their work or to help fund their college tuition.

“Now more than ever, it’s critical that the industry recognize and empower students who will become our future scientists, resource managers, environmentalists, apiarists and educators,” said Aimee Hood, regulatory and scientific engagement lead for Crop Science, a division of Bayer. “Whether they’re already keeping bees or working in the lab to find solutions for pollinators’ most pressing issues, such as a lack of abundant forage, Bayer is thrilled to seek out the next generation of biodiversity champions.”

Last year, Bayer introduced the Blue Ribbon Beekeeper Award, which recognized past winners and standout applicants of its former program, the Young Beekeeper Award. This year’s program will again celebrate the outstanding achievements of young people who have made a positive impact on their communities through beekeeping or other pollinator-related research and activities. Past honorees have won based on their efforts researching treatments for American foulbrood disease and

Varroa mites, honey bees' No. 1 enemy; educating their communities about the importance of pollinators; managing their own hives, standing out in their respective beekeeping associations, and more.

The 2020 winners will be determined by a panel of industry experts. In addition to Hood, panel members include:

- Joan Gunter, president, American Beekeeping Federation
- Brandon Hopkins, assistant research professor, apiary and laboratory manager, Washington State University
- Grace Kunkel, communications coordinator, Project Apis m.
- Jake Reisdorf, first-ever Young Beekeeper Award winner and 2019 Blue Ribbon Beekeeper Award winner; CEO, Carmel Honey Company

The judges will select winners based on their applications, their responses to two essay questions and a professional reference from an individual involved in the student's project, such as a mentoring beekeeper/apiarist, community or agricultural organization leader, grower, teacher, school official or member of another relevant organization (e.g., beekeeping or gardening association).

"It's incredibly important for companies like Bayer to recognize and support the work young beekeepers are doing for pollinator health," said Reisdorf, who is 17 years old and a rising senior. "From a young age, I've been fascinated by bees, so I love teaching others about pollinators and their contributions to our food supply. As a high school student, I strive to lead

my community by example by engaging young students across the country to get excited about beekeeping and STEM education, and I'm excited that Bayer is just as committed."

Any student between the ages of 12 and 18 who has approval from a legal guardian as well as a sponsoring mentor may apply for the 2020 award. To review application requirements and enter online, please visit: [beehealth.bayer.us/blue-ribbon-beekeeper-award](https://beehealth.bayer.us/blue-ribbon-beekeeper-award).

Also in recognition of National Pollinator Week, the Bayer Feed a Bee initiative is relaunching its seed giveaway program, focused on making free seeds available to pollinator enthusiasts around the country looking to do their part to support the health of bees, butterflies and other pollinators. Those interested in requesting pollinator-attractant seeds can visit [FeedABee.com/seeds](https://FeedABee.com/seeds) beginning today to request a free shipment of Feed a Bee seed packets, which can be used to create a pollinator haven in backyards, community gardens, on windowsills, doorsteps and more to help fill the gap of existing pollinator forage sources across the U.S.

Feed a Bee and Blue Ribbon Beekeepers are initiatives of the [Bayer Bee Care Program](#), which continues the company's 30-year history of supporting bee health. For more information on Bayer bee and pollinator health initiatives, please visit: [beehealth.bayer.us](https://beehealth.bayer.us). You can also follow and share with us on Twitter and Instagram @Bayer4CropsUS and view photos on [Flickr](#).

*Bayer is committed to bringing new technology and solutions for agriculture and non-agricultural uses. For questions concerning the availability and use of products, contact a local Bayer representative, or visit Crop Science, a division of Bayer, online at [www.cropscience.bayer.us](http://www.cropscience.bayer.us).*

*Visit the [Bayer Connect - Social Hub](#) for social media, recent news, blog posts, videos and more from Crop Science, a division of Bayer.*

## About Bayer

Bayer is a global enterprise with core competencies in the life science fields of health care and nutrition. Its products and services are designed to benefit people by supporting efforts to overcome the major challenges presented by a growing and aging global population. At the same time, the Group aims to increase its earning power and create value through innovation and growth. Bayer is committed to the principles of sustainable development, and the Bayer brand stands for trust, reliability and quality throughout the world. In fiscal 2019, the Group employed around 104,000 people and had sales of 43.5 billion euros. Capital expenditures amounted to 2.9 billion euros, R&D expenses to 5.3 billion euros. For more information, go to [www.bayer.com](http://www.bayer.com).
